

Safecity Introduces the new Thuraya XT

The World's most Rugged Satellite Phone

Thuraya XT, the world's first IP54/IK03 certified satellite phone, has arrived. Splash resistant, dust protected, and shockproof, Thuraya XT is the most rugged handset combining satellite phone functionality with the dependability of Thuraya's geostationary network. Thuraya XT lets you stay close. Its extremely durable construction makes Thuraya XT ideally suited to tough environments, where other satellite phones may not handle the conditions so well.
